EDUCATION

- **GL Bajaj Institute of Technology and Management, Greater Noida** *2025*
  BTech in Information Technology Percentage: 78%
- **Lucknow Public Schools and Colleges, Lucknow** *2021*
  ICSE Percentage: 95%

PERSONAL PROJECTS

- **Virtual T-Shirt Customizer** https://customizer-tau.vercel.app/
  Tools & Technologies used: React JS, Tailwind CSS

  – Engineered a dynamic platform enabling users to upload images and alter t-shirt colors in real-time; increased user engagement by 40% and boosted conversion rates by 25%.
  – Implemented functionality allowing users to upload images and apply them either as logos or across the entire virtual t-shirt, providing extensive customization options.
  – Facilitated seamless downloading of customized designs, empowering users to save their creations for further use or sharing.

- **Personal Portfolio** https://portfolio.app/
  Tools & Technologies used: HTML, CSS, JavaScript

  – Created a professional online portfolio showcasing my skills, experience, and accomplishments in a clean and modern design.
  – Visitors can:
    * Download my CV to learn more about my background and skills.
    * Get an overview of my projects and accomplishments.
    * Explore my online presence through links to my LinkedIn profile, GitHub repository, and LeetCode profile.
  – Demonstrated understanding of front-end development principles and best practices, ensuring a fast, secure, and accessible website.

- **Cafe Shop Website** https://cafe-shop-ebon.vercel.app/
  Tools & Technologies used: React JS, JavaScript

  – Designed and developed a robust cafe website utilizing React and JavaScript, featuring seamless integration of a user-friendly cart system for exploring and purchasing diverse cafe items.
  – Implemented secure user authentication with login/signup functionalities and streamlined payment options for a smooth checkout experience.
  – Leveraged agile methodologies to continuously enhance features and optimize performance, ensuring an immersive and convenient platform for culinary enthusiasts.

TECHNICAL SKILLS AND INTERESTS

Languages: C, C++, Python, HTML5, CSS3, JavaScript,MySQL
Developer Tools: VS Code, Jupyter Notebook
Frameworks:React JS , Tailwind CSS
Coursework: Data Structures, Object Oriented Programming, DBMS, Operating System, Computer Networking
Soft Skills: Communication, Problem Solving, Time Management

POSITIONS OF RESPONSIBILITY

- **Communication head**CodeSpace
- **Organizer of a session with Mr. Sandeep Jain, Founder of GeeksforGeeks, at GLBITM**Code Space

ACHIEVEMENTS

- **Solved 350+ questions on LeetCode**
- **Solved over 800 coding problems demonstrating proficiency in algorithmic problem-solving.**
